Important Information Regarding Your Form 1099-B

* - Denotes additional reportable information related to transaction listed immediately above.

We will report cost basis for "covered" shares to the IRS. We will not report cost basis for "noncovered" shares to the IRS. Unadjusted Gain/Loss equals Proceeds (Box 1d) minus Cost or Other Basis (Box 1e) and has not been adjusted for Accrued Market Discount (Box 1f), Wash Sale Disallowed (Box 1g), gain/loss considered Ordinary (Box 2), or gain/loss attributed to Proceeds from Collectibles (Box 3). The cost basis for sales of stock received from compensatory options granted after 2013 is the exercise price only and has not been adjusted for any ordinary income recognized upon grant or exercise. The IRS may require you to report the Proceeds, Cost or Other Basis, and any adjustments from your Form 1099-B on Form 1040, Schedule D (Capital Gains and Losses) and/or Form 8949 (Sales and Other Dispositions of Capital Assets). Refer to the Instructions for Form 1040, Schedule D, and Form 8949 to determine how to report this information on your tax return.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period. "Ordinary" indicates that some or all the Unadjusted Gain/Loss may be treated as ordinary income or loss. "Collectibles" indicates that proceeds are from a transaction involving collectibles or from a sale of a security that holds collectibles (e.g. a Grantor Trust UIT).

Important Information Regarding Your Form 1099-B (continued)

Select accounts have a default cost basis method (CBM) of average cost for domestic open-ended mutual funds and lot cost for all other securities. The default lot relief method (LRM) is first-in, first-out (FIFO). Advisory and Guided Solutions accounts, have a default CBM of lot cost for all securities. The default LRM is Tax Aware. UMA accounts have a default CBM of lot cost for all securities. The default LRM is FIFO. The default LRM will be used unless otherwise indicated at the time of sale. If you have used any other cost basis calculation method or lot relief methods for noncovered security transactions, do not rely on these figures. Also, we are required to calculate and report amortization and accretion adjustments for covered taxable and tax-exempt bonds using "default" methods specified by IRS regulations. We make cost basis adjustments on non-covered taxable and tax-exempt bonds for amortization and accretion. The cost basis information for non-covered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors cannot provide tax or legal advice.

Please visit www.irs.gov for the most complete and current forms, instructions and other information.

Form 1099-INT

The information provided may be different for covered and noncovered securities. For a description of covered securities, see the Instructions for Form 8949. For a taxable covered security acquired at a premium, unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize the premium under section 171, or for a tax-exempt covered security acquired at a premium, your payer must generally report either (1) a net amount of interest that reflects the offset of the amount of interest paid to you by the amount of premium amortization allocable to the payment(s), or (2) a gross amount for both the interest paid to you and the premium amortization allocable to the payment(s). If you did notify your payer that you did not want to amortize the premium on a taxable covered security, then your payer will only report the gross amount of interest paid to you. For a noncovered security acquired at a premium, your payer is only required to report the gross amount of interest paid to you.

Box 1. Shows taxable interest paid to you during the calendar year by the payer. This does not include interest shown in box 3. May also show the total amount of the credits from clean renewable energy bonds, new clean renewable energy bonds, qualified energy conservation bonds, qualified zone academy bonds, qualified school construction bonds, and build America bonds that must be included in your interest income. These amounts were treated as paid to you during the calendar year on the credit allowance dates (March 15, June 15, September 15, and December 15). For more information, see Form 8912. See the instructions above for a taxable covered security acquired at a premium.

Box 2. Shows interest or principal forfeited because of early withdrawal of time savings. You may deduct this amount to figure your adjusted gross income on your income tax return. See the Instructions for Form 1040 to see where to take the deduction.

Box 3. Shows interest on U.S. Savings Bonds, Treasury bills, Treasury bonds, and Treasury notes. This may or may not all be taxable. See Pub. 550. This interest is exempt from state and local income taxes. This interest is not included in box 1. See the instructions above for a taxable covered security acquired at a premium.

Box 4. Shows backup withholding. Generally, a payer must backup withhold if you did not furnish your TIN or you did not furnish the correct TIN to the payer. See Form W-9. Include this amount on your income tax return as tax withheld.

Box 5. Any amount shown is your share of investment expenses of a single-class REMIC. This amount is included in box 1. **Note:** This amount is not deductible.

Box 6. Shows foreign tax paid. You may be able to claim this tax as a deduction or a credit on your Form 1040 or 1040-SR. See your tax return instructions.

Box 7. Shows the country or U.S. possession to which the foreign tax was paid.

Box 8. Shows tax-exempt interest paid to you during the calendar year by the payer. See how to report this amount in the Instructions for Form 1040. This amount may be subject to backup withholding. See Box 4 above. See the instructions above for a tax-exempt covered security acquired at a premium.

Box 9. Shows tax-exempt interest subject to the alternative minimum tax. This amount is included in box 8. See the Instructions for Form 6251. See the instructions above for a tax-exempt covered security acquired at a premium.

Box 10. For a taxable or tax-exempt covered security, if you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election in writing in accordance with Regulations section 1.6045-1(n)(5), shows the market discount that accrued on the debt instrument during the year while held by you, unless it was reported on Form 1099-OID. For a taxable or tax-exempt covered security acquired on or after January 1, 2015, accrued market discount will be calculated on a constant yield basis unless you notified your payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to make a constant yield election for market discount under section 1276(b). Report the accrued market discount on your income tax return as directed in the Instructions for Form 1040. Market discount on a tax-exempt security is includible in taxable income as interest income.

Box 11. For a taxable covered security (other than a U.S. Treasury obligation), shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported in this box, see the Instructions for Schedule B (Form 1040) to determine the net amount of interest includible in income on Form 1040 or 1040-SR with respect to the security. If an amount is not reported in this box for a taxable covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest in box 1. Brokers and barter exchanges must report proceeds from (and in some cases, basis for) transactions to you and the IRS on Form 1099-B. For a corporation that had a reportable change in control or capital structure, this box may show the class of stock as C (common), P (preferred), or O (other).

Box 1b. This box may be blank if box 5 is checked or if the securities sold were acquired on a variety of dates. For short sales, the date shown is the date you acquired the security delivered to close the short sale.

premium. If the securities were acquired through the exercise of a noncompensatory option granted or acquired before January 1, 2014, your broker is permitted, but not required, to adjust the basis to reflect your option premium. If the securities were acquired through the exercise of a compensatory option, the basis has not been adjusted to include any amount related to the option that was reported to you on a Form W-2. If box 5 is checked, box 2 may be blank.

Box 6. If the exercise of a noncompensatory option resulted in a sale of a security, a checked "net proceeds" box indicates whether the amount in box 1d was adjusted for option premium.

Box 7. If checked, you cannot take a loss on your tax return based on gross proceeds from a reportable change in control or capital structure reported in box 1d. See the Form 8949 and Schedule D (Form 1040) instructions. The broker should advise you of any losses on a separate statement.
